SOUTHEAST ALASKA SPRING TROLL FISHERY ANNOUNCEMENT

Sitka. . . The Alaska Department of Fish and Game announced today the following information concerning the commercial spring troll fishery:

The spring troll areas and Terminal Harvest Areas (THA) listed below **will remain open until further notice:**

Ketchikan (101-29)	West Behm Canal (101-90)	Neets Bay THA (101-95)
Clarence Strait (106-20)	Steamer Point (106-30)	Ernest Sound (107-10)
Anita Bay THA (107-35)	Port Armstrong THA (109-11)	Frederick Sound (110-31)
Chatham Strait (112-12)	Hidden Falls THA (112-22)	Sitka Sound (113-41)

The spring troll areas listed below will be open according to the following schedule. All areas will open at 12:01 a.m. of the opening date and close at 11:59 p.m. of the closing date. The openings may be extended if the Alaska hatchery contributions are high. Information on extensions will be given in a future news release. The 2012 Spring Troll Management Plan is available online and in area offices.

Petersburg/Wrangell area:

Sumner Strait (105-41)	May 7-8
Snow Pass (106-41)	May 9-11

Chatham Strait:

Little Port Walter (109-10)	May 9-11
Tebenkof Bay (109-62)	May 7-9

Pelican area:

Lisianski Inlet (113-95)	May 7-9
Port Althorp (114-50)	May 7-9

The following Pelican areas will open May 6-12:

Hawk Inlet (112-65)	Stag Bay (113-97)	Cross Sound (114-21)
South Passage (114-23)	Homeshore (114-25)	Point Sophia (114-27)

Sitka area:

Redoubt Bay (113-30)	May 7-8
Salisbury Sound (113-62)	May 7-9

District 8:

Stikine River Directed Fishery May 7-9 (see 5AAC 29.095. District 8 KING SALMON MANAGEMENT PLAN for the area descriptions).

District 11:

Taku River Directed Fishery May 7-9 (see 5AAC 29.097. District 11 KING SALMON MANAGEMENT PLAN for the area descriptions).

Initial openings in other spring troll areas will be announced in future news releases. The West Rock, Point Alava, Kendrick Bay, and Western Channel spring areas will open initially during the week of May 13, followed by the Biorka Island and Goddard Area opening during the week of May 20.

CODED-WIRE-TAGGED FISH

The heads of all adipose fin-clipped salmon must remain attached to the fish until the fish are sold [5 AAC 29.140 (b)]. Permit holders who freeze their catch onboard are asked to contact the department prior to fishing so that sampling and fish ticket issues can be discussed. An Exemption Permit is required to allow the removal of heads from Chinook salmon harvested in the spring areas prior to delivery.

CATCH REPORTING

It is extremely important to keep fish caught in different fishery areas separated so that accurate dockside sampling can occur by department personnel. In order to maximize the harvest of Alaska hatchery-produced Chinook salmon in the spring fisheries, catches must be reported accurately. If more than one area or fishery is fished, or fish are kept for more than one period, each troller and tender is required to keep and report these catches separately on separate fish tickets (5AAC 29.130). The fishery name and the fishery area number must be reported on all fish tickets, as well as dates that the fishing trip started and ended. All fish legally retained in the commercial salmon troll fishery, whether for sale or retained for **personal use** (condition code 95) **must be recorded on a fish ticket**. Coho salmon may not be retained until June 15, unless an earlier date is announced in a future news release. That date is one of several pending regulation changes adopted at the 2012 Board of Fisheries meeting.

NEW REGULATIONS ADOPTED BY THE ALASKA BOARD OF FISHERIES

During the Board of Fisheries (BOF) meeting held in Ketchikan from February 24–March 4, new regulations were adopted that will affect the management of the 2012 spring troll fisheries. *These new regulations may not take effect until sometime in June. The department will issue a News Release announcing when the new regulations go into effect.*

GROUND FISH BYCATCH

Fishermen are reminded that the season for lingcod bycatch opens in the salmon troll fishery on May 16. The lingcod season will remain open through November 30, or until lingcod area allocations are taken, whichever occurs first. All lingcod retained must measure at least 27 inches from tip of snout to the tip of the tail, or 20.5 inches from the front of the dorsal fin to the tip of the tail. Salmon trollers may not retain lingcod in the waters of Sitka Sound as defined in 5 AAC 28.150 (a). For additional information on groundfish bycatch in the salmon troll fishery, refer to the department news release issued on April 23 or contact the groundfish staff in Sitka at 907-747-6688.

The emergency order corresponding with this announcement is 1S0812.
